MAINSTREAM COMPUTING FOR A VARIETY OF BUSINESS USES

ThinkCentre M Series All-in-One devices offer powerful configurations, space-saving design and enterprise security and manageability features.

ThinkCentre M70a

Smarter technology for all

Lenovo

With its sleek design and cable-routing system that hides cables inside the rear of the device, this 21.5” all-in-one will modernize any space. Optimized for web conferencing with a 1080p camera, it also has an optional IR camera which not only supports facial recognition, but also helps to protect confidential information - alerting users to 'shoulder surfers', and automatically blurring the screen when they are not looking at the display themselves.

REASONS TO BUY

Modern Standby allows the device to receive data, when inactive or in sleep mode - so emails and web-based applications remain up to date and ready to use immediately. Also supports both Cortana and Amazon Alexa for Business voice assistants for hands-free operation.

Has a total of 7x USB ports including 1x USB-C port on the side of the screen, which can be used to charge mobile devices, along with a dedicated smartphone holder in the base.

Optimized to reduce power consumption with Energy Star 8.0 and EPEAT Silver energy efficiency certifications.

Lenovo

This premium 23.8"" all-in-one includes advanced features like vPro manageability, modern standby, Dolby Atmos audio and voice assistant support. At the press of a button, the optional PrivacyGuard screen renders the display unreadable unless you are sat directly in front of it. With the optional IR camera, the device will automatically blur the screen if the user is not looking at it and can also alert them to 'shoulder surfers', improving information protection.

REASONS TO BUY

Hides connected cables inside a rear panel, with wires discreetly routed from the bottom of the stand. A smartphone holder is built into the base, which can be charged from side-mounted USB ports. Configure for the needs of different users with HDD and M.2 SSD storage, optional graphics card and optical drive.

Security features include individual USB port disablement, and a self-healing BIOS which can restore itself in the event of a BIOS update failure or if maliciously attacked.

Optimized to reduce power consumption with Energy Star 8.0 and EPEAT Silver energy efficiency certifications.
